

Budapest, 06th December 2019

**Dear Partners,**

Hereby we would like to officially inform you that Celebi Ground Handling Hungary Ltd. will start its operation at BUD Cargo City as of 06 January 2020.

Opening of Cargo City is a real milestone for Celebi.

With more than 5 m EUR investment until the end of the project, over 22.000 sqm area we are starting a new era in cargo and warehouse handling at BUD.

State-of-the-art technology, upgraded equipment park (including dual view technology cargo scanners) and a more automated new Cargo Handling software (including slot management for trucks) will be at the service of our Partners.

For further details on the improvements, please check our presentation attached.

Meanwhile, you may be aware that the labor market in Hungary has become very challenging in the last few years with severe cost increase. Having our focus on all time quality service it is our highest priority to ensure the sufficient number of employees all the time. Under this circumstances severe cost increase has effected us immensely during the last period, which also makes it inevitable for us to align our prices with the changed market conditions.

**As a result of the extensive investments, and increase of the product range and quality on the one hand, and also as a consequence of the negative effects of the labour market change on the other hand Celebi Ground Handling Hungary Ltd. announces that its lanside charges will be increased according to the attached price list effective from 06 January 2020.**

**Changes do not affect storage and security screening (x-ray and bomb check) fees.**

Please note, besides price change, several new service items have been introduced (e.g. BUP handling), and terms of the services have been revised (e.g. storage fee of part shipments).

For further information we kindly ask you to check the attached price list and Client Manual carefully.

Thank you for your understanding and all time cooperation!

We are looking forward to serve you at BUD Cargo City!

Mr. Taner Sari  
Managing Director
