ÇELEBİ AVIATION
COMPANY PROFILE
In my association with Çelebi over the years, I have come to appreciate that only together as a team can we provide excellence in customer service and high performance handling. We are continuing to evolve and grow into different regions around the globe. Together, we aspire to enter into these geographies with the same core proposition of today: Our Strength is Our Service.

With over 13000 dedicated employees, Çelebi continues to operate on 2 continents, in 5 countries, at more than 40 stations. Our ambition is to expand our geographic coverage into more developing markets, while providing rewarding employment opportunities to a growing family of colleagues around the world and meeting service needs of our loyal and future customers.

I would like to thank our employees for their dedication throughout the years and those to come. Without their presence we would not have the diverse, positive attitude to serve our partners well across the network.

I would also like to thank our customers for their loyalty and trust in Celebi and ongoing support to make us feel a part of their own team.
